MORE DETAILS

The Wicked Picket Anchor System is a high-strength, rapidly deployed ground anchor. This comprehensive system includes three hardened steel pickets for strength and durability, an aluminum Picket Plate with precision formed holes for maximum holding strength, a modular Hitch Point for rigging anchors, an Extraction Prusik for picket removal, and a Carry Bag that rolls open and doubles as edge protection.

FEATURES

- High-strength, rapidly deployed ground anchor system.
- Hardened steel pickets provide reliable strength and durability.
- Picket Plate simplifies anchor installation and maximizes holding capacity.
- Pickets align vertically for quick placement using a sledgehammer.
- Precision-formed holes distribute load to each picket simultaneously.
- Modular Hitch Point attaches to the Picket Plate for easy anchoring. It is compatible with carabiners and textiles including CMC Anchor Straps.
- Hitch Point also connects with 2-inch truck hitches for versatile rigging.
- Extraction Prusik creates a lifting point for efficient picket removal.
- Roll-open Carry Bag simplifies transport and access to components.
- Carry Bag is durable, water resistant, and doubles as edge protection.
- Picket Plate and Hitch Point are each certified to NFPA General Use.
