

BATTERYSTAR

BATTERY POWERED CHAIN HOIST

DURABILITY THAT MOVES WITH YOU.

Get your CM® BatteryStar™ Battery-Powered Chain Hoist up and running in no time—our ultra-durable, easy-carry case makes transporting your gear to and from the job site smooth, so you can focus on the work, not the setup. Compact but large enough to fit up to 60 ft. of chain so you won't have waste precious time removing the hoist's chain before storing. With smooth-glide wheels and a tough, splash-resistant exterior built to withstand the rigors of the job site, this case rolls with you from shop floor to rugged terrain to securely transport your gear. A custom insert inside the case protects the hoist, remote, and charger to minimize damage of everything you need to get the job done. Quickly access your essentials with the removable top tray that keeps your most-used gear, charger, extra batteries, hooks, slings, and more organized and within reach.

P/N 192109526

External Dimensions	
Height*	19.8in
