

EQUIPMENT STORAGE BAG

Made of a padded double layer of Cordura® nylon to protect your hardware like the MPD™ and CLUTCH™, this storage bag features a hook-and-loop closure on the top to keep the bag sealed, but allows quick access. Web handles double as pull tabs for easy opening and can be used to hang the bag from a hook or carabiner. This storage bag will fit either size MPD and will fit either size CLUTCH with extra room remaining.
